

***MADP is breaking down barriers to bring hope.
We welcome you.***

Who We Are.
What We Accelerate.

Microbiome Alliance for
Disease Prevention
Transforming Human Health

Microbiome Alliance for Disease Prevention (MADP) is a U.S. based, 501(c)(3) public health non-profit focused on **advancing early detection and prevention of chronic disease**. We are dedicated to serving patients, healthcare providers, and the broader community.

Precision, prevention, and early detection are opening the door to realign how we look at health, how we treat patients, and how we combat disease. MADP invests in **precision medicine**, the **microbiome**, and **precision nutrition** – bringing forth the latest clinical testing, diagnostics, and supportive resources to address the critical drivers of non-communicable chronic diseases (NCDs) such as heart disease, diabetes, and cancer.

MADP operates as a **Collaborative Alliance** partnering with the top medical institutions, clinicians, and researchers from across the country. **TOGETHER** we are dedicated to saving lives. **TOGETHER** we break down barriers to bring hope - today, tomorrow, and generations to come.

Epidemic of Chronic Diseases

U.S. Public Health Crisis

“Raise your hand if someone you love has faced dementia, suffered a heart attack, been diagnosed with diabetes, or is battling cancer.”

Every single hand goes up.

This is the stark reality we face. It's a crisis that demands our immediate attention and action ~ MADP

U.S. Public Health Statistics

- ❑ Chronic diseases have **risen to unprecedented rates** and have reached their **highest levels since America's Health Rankings began tracking them.**
- ❑ Chronic diseases **account for the most illness, disability, and death in the United States.**
- ❑ Chronic diseases are the leading driver of the U.S. healthcare costs accounting for **90% of the nation's \$4.1 trillion in annual healthcare spending.**
- ❑ **Cardiovascular disease** is the **leading** cause of mortality - **one person dies every 34 seconds** in the United States.
- ❑ **Cancer** is the **second** most common cause of death in the US, exceeded only by heart disease. Over **1.9 million new cancer cases** are expected to be diagnosed.
- ❑ **Obesity** is a serious and costly chronic disease affecting 20% of children and 42% of adults and continues to increase. **1/3 of American youth are ineligible for military service** due to obesity.
- ❑ **Deaths due to Alzheimer's disease more than doubled between 2000 and 2021, increasing 141%.** Two-thirds of these older adults (4.2 million) **are women.**

World Health Organization & CDC /Noncommunicable Disease

Microbiome Alliance for Disease Prevention
Transforming Human Health

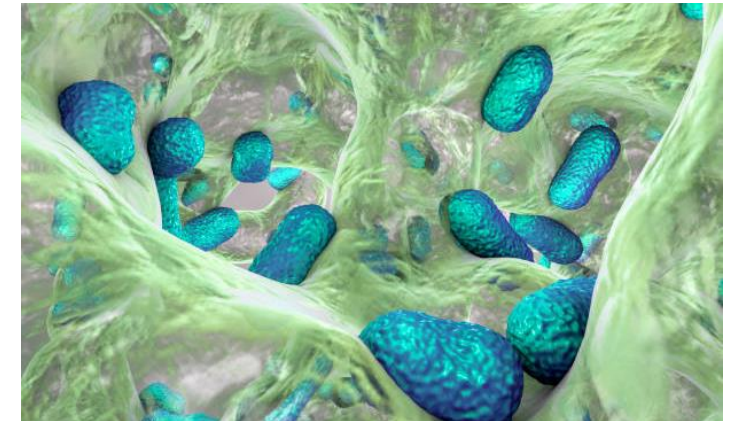

MADP public health non-profit provides clinical education and supportive resources for early detection and prevention of non-communicable chronic diseases (NCDs).

MADP works closely with physicians and healthcare teams providing resources for implementing the latest clinical diagnostic testing for early detection of NCDs.

MADP's unrelenting focus to help every patient advocate for their own health - preventing disease, early detection, and driving positive health outcomes. MADP provides HOPE when a cure doesn't seem possible.

MADP Circle of Hope Advancing Cancer Prevention and Cancer Care

When battling cancer, every minute matters. MADP Circle of Hope offers education and supportive resources to help patients navigate the complex world of cancer. Providing a hopeful approach to understanding cancer, accessing comprehensive care, tumor biomarker testing, and targeted treatments.

MADP Circle of Hope helps individuals recently diagnosed, undergoing treatment, and cancer survivors.

Together Fighting Cancer – Every Step of the Way.

Microbiome Alliance for Disease Prevention
Transforming Human Health

Providers are on the front lines helping patients battle chronic disease. Due to overload, it is difficult for clinicians to stay on top of the latest scientific and clinical advancements. We ease the burden placed on our healthcare leaders and help them overcome these hurdles.

Navigating the complex field of clinical care can be **overwhelming for patients**. Understanding the drivers of chronic disease, laboratory testing, and the benefits of early detection are crucial for making informed decisions and actively participating in one's healthcare journey.

At MADP, we are unwavering in our commitment to patients and providers. Our relentless pursuit of clinical advancements aims to improve patient outcomes and ensure everyone benefits from the promise of precision healthcare.

MADP is here by your side. Paving the way for a healthier future.
